Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted Applicants' representative to suggest incorporating claims 60, 66, 72, 77, 82, and 87 into their respective independent claims: 55, 61, 67, 73, 78, and 83, in order to advance the prosecution of this application. Also, "computer-implemented" should be added to the method claim to ascertain that the claim limitations are tied to a technological art. The representative agreed to do so and authorized the Examiner to make the above changes via an Examiner's amendment.
